NEW!

Ultimate  **Plus**TM

10" Chimney for Factory-Built Fireplaces

AVAILABLE APRIL 2023

Installation has never been easier!

A twist-lock stainless steel coupler system with 1-inch overlap makes installation simple and quick.

1" insulated wall thickness

Laser-welded outer and inner seams create a sleek, smooth, clean look.

Stainless steel inner lining and outer casing provide fast venting of combustion products.

2" safety clearance from combustible materials

Tested and Certified to UL 103 Type HT
